

Equipment Care

Dear PAPC Member,

You now have a new partner in productivity.

PAPC and Ecolab Equipment Care have teamed up to keep your kitchen running right. As your official provider of kitchen equipment repair services, Ecolab is ready to offer you superior service when an equipment failure threatens to cripple your kitchen.

In fact, no one is better equipped to respond to all your kitchen equipment repair needs. With Ecolab, you can count on:

More Service. Quality Solutions. When you need service, faster responses mean faster fixes. Technicians are available and ready for dispatch 24/7 and PAPC member priority response. And since Ecolab experts are trained to quickly identify the right solutions, your kitchen gets back on the right track faster.

More Parts. Delivered Faster. With over \$40 million of in-stock inventory, chances are Ecolab has the parts you need on the truck or in the warehouse. And with nationwide coverage featuring next-day delivery with money-saving ground shipping to most areas, you save money getting the parts you need when you need them.

More Value. More Savings. The Ecolab Preventive Maintenance Program is designed to prevent costly breakdowns and devastating downtime with scheduled inspections and equipment calibration to OEM specs.

More Productivity. More Profitability. Superior solutions from Ecolab help ensure higher food quality, longer equipment life and reduced labor costs. The result? You'll minimize lost productivity while positively impacting profitability for your foodservice facilities.

With Ecolab Equipment Care on your team, it's never been easier to get the kitchen equipment repair parts and services you need to keep your kitchen running right.
